How to Form a Library, 2nd ed

Henry B. Wheatley 2019-12-17

"How to Form a Library" is the second edition of the practical manual on buying, collecting, and organizing books into a structured entity called a library. The book was aimed to help professional and amateur bibliophiles transform their passion for book collection. The

issue tells the history of libraries and shares tips on literature selection and organization by topics, gender, and age.

Form and Meaning in the History of the Book Nicolas Barker 2003 Nicolas Barker, OBE FBA, has made many contributions to the study of the book. In celebration of his 70th birthday, the British Library has published a selection of his essays that show the range of his interests in a number of related fields: books and texts; books and people; typography and early printing; the history of the book; bookselling; and forgery. None of these essays has previously been reprinted and collectively they offer a series of authoritative insights into various aspects of the book as physical and cultural artefact. The collection is prefaced by an introduction by Alan Bell, former Librarian of the London Library.

Government Publications

Bernard M. Fry 2013-10-02
Government Publications: Key Papers is a compilation of papers that covers various topics related to government publications. The book presents materials drawn from a variety of sources, such as

public domains, book chapters, and periodicals from different countries. The text contains 61 chapters organized into 15 parts; each part covers a specific area, such as sorting and labeling of publications, library systems, reference services, and municipal and state publications. The book dedicates several parts to British, Canadian, and Australian publications. This book will be of great value to individuals who have an interest in government information.
